

Task Order for Professional Engineering Services

To:	Jesse Clark General Manager RD 2035
From:	John B. Davids, P.E. Davids Engineering, Inc.
Date:	08/20/2024
Project name:	On-Call Services
Project #:	1092.04
Task name:	Field Survey of Lake Pump Station, 27 Return Pump Station, and 28 Pump Station
Task order #:	02

Davids Engineering, Inc. (DE or CONSULTANT) is pleased to provide this proposal to RD 2035 (CLIENT) to assist Reclamation District 2035 with field surveys necessary to support 30% design of planned improvements to the Lake Pump Station, 27 Return Pump Station, and 28 Pump Station. CLIENT understands that this preliminary work does not reflect all surveying that will be required to support final design and that additional surveying will be included in addition task orders as agreed to by CONSULTANT and CLIENT. Pursuant to the Task Order Agreement for Professional Services between CLIENT and CONSULTANT dated February 21, 2024, CLIENT desires and CONSULTANT agrees to perform the professional services according to the following terms.

1 Scope of Services

CONSULTANT will complete topographic and bathymetric survey of Lake Pump Station, 27 Return Pump Station, and 28 Pump Station to support 30% engineering design.

2 Schedule

Schedules and timelines shall be determined through coordination between, and the mutual agreement of, CONSULTANT and CLIENT. Through coordination with CLIENT, CONSULTANT plans to complete field activities on August 21, 2024.

3 Costs

CONSULTANT costs associated with performing this task order will be billed to the CLIENT on a time and materials basis not to exceed Ten Thousand Dollars (\$10,000.00) without prior written authorization.
